DETAILED ACTION

EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with John L Rogitz (Reg. No. 33,549) on November 23, 2004.

The application has been amended as follows:

In the Specifications:

Page 5, lines 9-11, "However, if implemented at a disk controller, the controller could combine the external ordering of the present invention with its conventional request ordering based on internal constraints, e.g., disk state." have been deleted.

Page 10, lines 9-15, "Further, if implemented on a disk controller, the controller could combine the external constraint (i.e., the request priority) with ordering based on the internal state of the associated disk.

It is to be appreciated that the term "priority" as used herein can also be thought of as meaning "class of service". A class of service priority scheme indicates that requests in different classes of service are not necessarily served in a specific order, but rather according to the quality of service specified for that class of service." have been deleted.

2. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Mehdi Namazi whose telephone number is 571-272-4209. The examiner can normally be reached on Monday-Friday 8:30-5:00.
